

John J. Maxwell Science Scholarship Award

John Maxwell Science Teacher at Chautauqua School from 1958-1984

The annual award was established by his family & friends to honor Mr. Maxwell's many years of dedication to his students and love for the field of science. Over the years he was a most memorable teacher and strong positive inspiration to a very many students.

Criteria: The award is to be presented to an individual student who best demonstrates original thinking and a strong love for the study of science. Additional factors should be taken into consideration. The recipient should have character which demonstrates a well rounded individual: Musical or other artistic talent, participation in human or community services, sound athletic ability, or strong scholastic showing in some other area(s) of study. In general the award should not be presented based solely on the highest science marks.
